

General Contract & Terms

This Agreement accompanies and incorporates the attached estimate, which defines the scope of work and total price for this project.

1. SCOPE OF WORK

The scope of work, materials, and areas to be insulated are described in the attached estimate, which forms part of this Agreement.

2. PAYMENT TERMS

Payment terms are 1/2 upon agreement and 1/2 upon completion. If final payment is not received within 30 days after completion, interest of 5% will be added monthly. Forms of payment: cash, check, or credit card (if credit card is chosen, add 4% charge fee).

3. THICKNESS & R-VALUE

Due to the nature of spray foam and cellulose, the material cannot be installed to exact depths. This does not constitute a defect in materials or workmanship.

4. WORK PLACE

The work place needs to be safe, clean, and have a bathroom available for employees.

5. THERMAL / IGNITION BARRIER

All exposed foam needs to be covered by an approved thermal barrier, i.e. drywall. Unless clearly stated in the attached estimate, this is not included in the bid. If required by local code official, we can install an intumescent paint covering at a cost of \$1.20 per square foot.

6. SAFETY & OFF-GAS

All subcontractors on the job site while spray foam is being installed are required to wear Personal Protection Equipment. The manufacturer recommends customers should not be in the home during the spraying process. Chemical-sensitive customers should not be in the house for at least 24 to 48 hours after work is completed. Open cell foam will off-gas for 24 to 48 hours; it is just the smell of the spray foam, there are no toxins being put into the air at that point.

7. SCHEDULE

The customer and Green Idea Insulation will communicate to establish a start date. Start dates cannot be guaranteed due to variables outside the Company's control (weather, equipment, material allocation, work backlog, job-site delays, etc.).

8. INSURANCE

Green Idea Insulation maintains general liability and workers' compensation insurance.

Signatures

By signing this document, the customer agrees to the services and conditions outlined in this document and in the attached estimate.

Customer: _____ Date: _____

Green Idea Insulation: _____ Date: _____

3-Year Workmanship Warranty

3 YEARS FROM COMPLETION · TRANSFERABLE

COVERAGE

Green Idea Insulation warrants that the spray foam insulation was installed in the areas listed in the Scope of Work using manufacturer-recommended application practices. This workmanship warranty covers verified installation defects that result in:

- Loss of adhesion
- Missing coverage in the contracted areas
- Abnormal shrinkage or separation attributable to application error

This workmanship warranty is **transferable** to the new property owner and is secondary to any warranty offered by the manufacturer or distributor of the products.

WHAT THIS WARRANTY MEANS

The foam was applied in the areas listed in the scope using standard, manufacturer-approved practices for the product. Normal real-world job-site conditions — framing irregularities, transitions, tight corners, and substrate variation — are expected and do not constitute a defect.

EXCLUSIONS

This warranty does not cover:

- Improper installation by others or alterations made after installation
- Damage from adjacent materials, penetrations, or later alterations
- Natural causes (weather, weathering), fire, floods, acts of God
- Structural failures, breaks, or building movement
- Consequential damages
- Labor costs are not covered beyond the repair of the verified defect

HOW TO MAKE A CLAIM

To make a claim, notify Green Idea Insulation in writing promptly after discovering the defect, within the warranty period.
